

Request for Proposals: Broad Clinical Research Fellows

A recent gift from the Eli and Edythe Broad Foundation established the Eli and Edythe Broad Clinical Research Fellows at USC. There are up to four available positions to support clinical research fellow training. The fellows must have completed their MD or MD/PhD training, currently be in their residency or fellowship program, and hold a license to practice medicine in California.

Successful candidates will be notified by March 18th, 2016. The fellowship will provide \$65,000 of salary support (plus fringe benefits), \$7,500 for supplies and a \$1,500 meeting allowance for clinical research fellows engaged in full-time research broadly related to stem cell biology and regenerative medicine. Fellowships will be awarded for one year and are potentially renewable for a second year.

To apply, please send a one-page summary of your research and training experience, current research interests, two letters of reference and a CV to Qing Liu at qliumich@med.usc.edu by February 26th, 2016.
