

NewsFlash!

On **April 24, 2017**, the National Science Foundation (NSF) will initiate a new pilot requiring the use of a [spreadsheet template](#) for identifying Collaborators and Other Affiliations information for Principal Investigators (PIs), co-PIs, and other senior project personnel identified on proposals.

The NSF [Proposal and Award Policies & Procedures Guide](#) (PAPPG) (NSF 17-1) requires PIs, co-PIs, and other senior project personnel identified on NSF proposals to individually upload Collaborators and Other Affiliations information as a Single Copy Document (see PAPPG Chapter II.C.1.e). NSF uses this information during the merit review process to help manage reviewer selection. The new pilot will standardize Collaborators and Other Affiliations information across the Foundation and will ensure that the information is submitted in a searchable format. Results from the pilot will be assessed and will determine how to proceed with this section of the proposal in the future.

Effective April 24, 2017, NSF will require the submission of a spreadsheet template to identify collaborators and other affiliations.

Please note that the spreadsheet template:

- Has been developed to be fillable. However, the content and format requirements must not be altered by submitters.
- Must be saved in .xlsx or .xls formats and directly uploaded into FastLane as a Collaborators and Other Affiliations Single Copy Document.
- Will be converted by FastLane from an .xlsx or .xls file to a PDF file.
- Has been tested in Microsoft Excel, Google Sheets, and LibreOffice.
- Will enable preservation of searchable text that otherwise would be lost. Must be uploaded in .xlsx or .xls formats only. Uploading a Collaborators and Other Affiliations Single Copy Document in any other format may delay the timely processing and review of your proposal.
- Will be directly linked in FastLane. The template and associated instructions may also be accessed directly [here](#).

In addition to the merit review process benefits, the Collaborators and Other Affiliations template will reduce administrative burden and improve efficiencies by providing submitters with a compliant and reusable format to maintain this information for use in subsequent proposal submissions to NSF. Please be advised that the new Collaborators and Other Affiliations pilot beginning on April 24 will only be for FastLane proposal submissions. Grants.gov proposal submissions will continue to follow the instructions in [NSF Grants.gov Application Guide](#) Chapter VI.2.4.
