

NewsFlash!

The National Institutes of Health (NIH) recently [announced](#) the transition to “FORMS-E” grant application packages, applicable for due dates on or after **January 25, 2018**. If you are having trouble locating the Forms-E version of an opportunity in Cayuse, please note that it may have been released under a new opportunity number. When numbers do not change, Cayuse will automatically download all available application packages and present them in the Opportunity tab, however, when the numbers change the new version can be easily added using the Download Opportunity button.

Some examples of opportunities whose latest versions involve new opportunity numbers include:

- PA-16-160 is now PA-18-484
- PA-17-225 is now PA-18-502
- PAR-16-242 is now PAR-18-206
- PA-13-303 is now PA-18-489 & PA-18-344
- PAR-17-466 is now PAR-18-555
- PAR-17-463 is now PAR-18-554
- RFA-AA-13-004 is now PAS-18-557
- PAR-16-339 is now PAR-18-556

We recommend doing a Google search for the announcement and reading the Overview Information in it to see if it links to a newer version. You can also check the application package formset by looking in the Competition ID field. It should say "Forms-E" there for the Forms-E version of an opportunity.

Questions? If you have any questions regarding these changes, please feel free to contact your [DCG Officer](#).
