

NewsFlash!

Update: When preparing a proposal in Cayuse (KC S2S), users would previously need to contact the TARA Help Desk and/or DCG Officers for assistance in uploading non-pdf attachments. Some agencies will allow proposal attachments in other formats (e.g., excel spreadsheets, word documents, etc.). To streamline proposal preparation, users are now able to directly attach non-PDF attachments as part of their Cayuse proposal. To avoid errors and/or warnings that could delay proposal submission, please review the agency's solicitation and/or funding opportunity to determine if non-pdf attachments are allowed in a proposal prior to routing your proposal for review and submission. Proposals should always be consistent with the requirements of the solicitation.

Questions? If you have any questions, please contact your [DCG Officer](#) in the Department of Contracts and Grants.
