

NewsFlash!

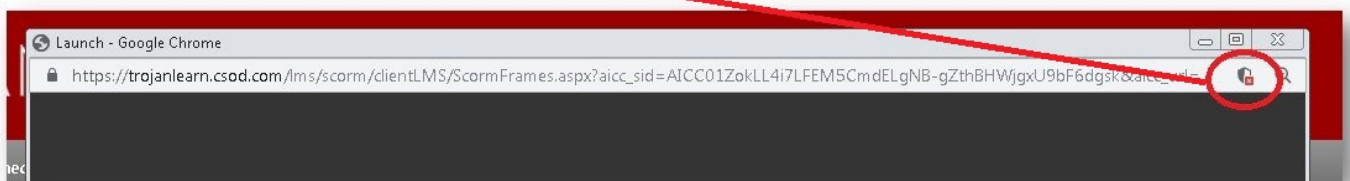

Announcement: The [Grants Management Training for Faculty Program](#) currently utilizes Adobe Flash software to view and interact with its multimedia contents. As of 2019, many of the current popular browsers (Chrome, Firefox, Safari etc.) are beginning to phase out the Adobe Flash player. As a result, the Department of Contracts and Grants will be updating the training program to run natively in all web browsers (i.e. without the need for Adobe Flash Player).

In the meantime, the below extra steps should be taken to launch the courses within the Grants Management Training for Faculty Program.

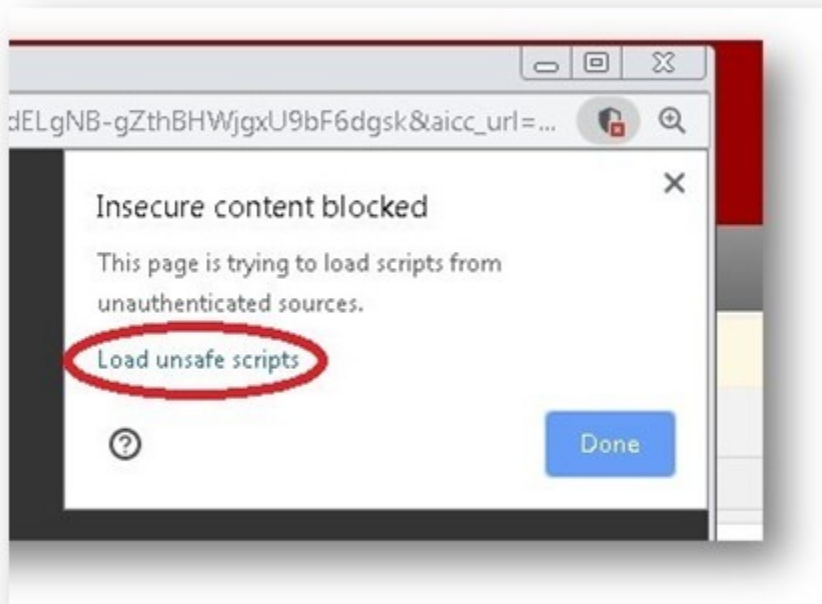

Directions:

Launch the course as normal. If the content does not load automatically:

1. In the upper right hand corner, click the shield icon with a red “X”.

2. Click “Load Unsafe Scripts”.

3. Click “Allow” to run Flash.

4. The course will load as normal.

Please Note: The user should only need to do this once and all subsequent courses within the program should launch normally afterwards.

For any additional technical issues regarding Grants Management Training, please contact [Noah Congelliere](#) in the Department of Contracts and Grants.
