Google Chrome

Directions for Enabling Flash in Google Chrome.

*Note: You will only need to complete the below steps once. Your browser will retain your settings once complete.*

1. Launch the course.

2. In the upper-right corner of the browser, click the shield icon with a red “x”.

3. Click “Load unsafe scripts”.

4. In the upper-left side of the screen, click “Not Secure”.

5. Ensure “Allow” is selected under “Flash” and “Pop-Ups and Redirects”.

   *Note: If you do not see the “Flash” option, follow the alternative directions at the end of this guide for permanently enabling Flash on Google Chrome.*
6. Click “Reload”.

Alternative Directions
*Older Versions of Chrome*

1. Launch the course.

2. In the upper-left corner of the browser, click the lock icon.

3. Under “Run Flash”, click “Allow”.

4. Click “Reload” or refresh the page.
Alternative Directions
Permanently Enable Flash

1. Launch the course.

2. In the upper-right corner of the browser, click the shield icon with a red “x”.

3. Click “Load unsafe scripts”.

4. In the upper-right corner of the browser, click the shield icon with a red “x” a second time.

5. Click “Manage”.

6. Under Flash, click the sliding button next to “Block Sites from Running Flash (Recommended)”. The button will turn blue and the text will change to “Ask First”.
