

NewsFlash!

Announcement: On August 19, 2020, the Department of Defense (DoD) issued an update to the DoD Grants and Agreements Regulations ([DoDGARs](#)), 2 CFR Section 1134.140. Awardees are now required to send all significant scientific or technological findings, recommendations, and results derived from DoD endeavors, including the final performance report, to the [Defense Technical Information Center](#) (DTIC). In addition, Awardees are required to send to DTIC the final peer-reviewed manuscripts of journal articles when they are accepted for publication and titles and publication dates are finalized.

To facilitate the required submission of journal articles, DTIC offers portals for uploading documents. Submitters without CAC, PIV or ECA cards can submit their publications at <https://go.usa.gov/xGyqj>. CAC, PIV, and ECA card holders can learn how to submit their publications on the submit to DTIC [page](#) on the R&E Gateway.

Questions? Please direct any questions to the DCG [Contracts and Grants Officer](#) assigned to your unit.
